EDUCATION

Master of Science, Business Analytics

December 2027

Wichita State University, Wichita, KS

Bachelor of Technology, Computer Science

August 2024

ICFAI University, Telangana, India

SKILLS

Excel, Python, Stata, Tableau, Data Analysis, Data Visualization

EXPERIENCE

Tech Mahindra

Associate – Customer Service

November 2024 – May 2025

- Communicated with UK clients to resolve account-related concerns and billing issues.
- Set up payment plans (Direct Debit and non-Direct Debit) and addressed credit score queries.
- Explained tariff structures and ensured clear understanding of services.
- Maintained follow-ups to ensure issue resolution and customer satisfaction.

Crewbytes

Management and Technical Support Intern

July 2023 – December 2023

- Engaged in web development, data analysis, and modelling to advance team objectives.
- Utilized Excel for extensive data analysis to provide actionable insights.
- Worked with teams and clients to identify and solve technical problems.

PROJECTS

Data Mining in Credit Card Fraud Detection

May 2023

- Built a Logistic Regression model in Python using the Orange tool to detect fraudulent credit card transactions through data mining techniques.

Chatbot in Health Care Services

December 2022

- Developed a rule-based Python chatbot with conditional logic for patient Q&A and researched Android chatbot applications in improving healthcare accessibility.
